

# Two Wheel Dream

music and lyrics © Jaye Krebs

chorus

**The wheels on the pavement are humming  
While I'm riding my bike down the street  
I'm standing on the pedals  
and flying like the wind  
riding my two wheeled dream**

My fenders are polished and shiny  
they sparkle like Mom's silverware  
The seat's old but it fits my butt  
Like a favourite old easy chair  
My handle bar tassles aren't aerodynamic  
but surely do dazzle the eye

chorus

The crunch of the tires over gravel  
The thump of the bump over curbs  
They're all combining like music  
The sweetest sound I have ever heard  
The wind in my ears is a symphony  
don't you know that it's playing my song

chorus

The neighbourhood dogs run out barking  
My bell sends a cheery hello  
Four legs won't catch my two tires  
They're hopeful but they're way too slow  
They lose the race every single time  
but tomorrow is another day

chorus

If you're looking for me and I can't be seen  
I'm out riding my two wheel dream
